**Dear Editor,**

**The front page of the June 2, 2005 edition of The Times reported Gary's Mayor "SLOT" King urging adoption of a County Option Income Tax. Mayor "SLOT" King was quoted as saying that "The only show in town is some form of income taxation."**

**I believe that Mayor "SLOT" King is wrong. There is another show in town. It is called "Get Rid of Greedy Politicians Who Tax Citizens from their Homes to the 'Poor House'."**

**Thank God that some Lake County political leaders care about the plight of the taxpayers. Last year, Lake County Commissioner Rudy Clay called for using gaming tax revenue to reduce property taxes. But, Mayor "SLOT" King and his allies firmly opposed any help for Lake County property tax payers. Remember that in future elections.**
